DETAILED ACTION

Oath/Declaration

1. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:
 2. **The error set forth in the declaration is insufficient because applicant merely rewrote a new claim into the declaration. Per MPEP 1414, part II, section C, it is not sufficient to reproduce the claim(s) into the declaration and/or to merely state that the error is the failure to include a claim directed to.... Therefore, attorney must submitted a new declaration that clearly sets forth an original in an original patent claim, must clearly identify a specific claim which has the error, and must clearly set forth the specific claim language wherein lies the error.**

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
4. Claims 1-17 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.
5. **The specification does not support the amended claims because applicant has not complied with 37 CFR 1.173(c) by providing an explanation of where support for all claim changes can be found in the original disclosure.**

6. The reply filed on 7/19/2005 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): **Applicant must submit a complete claim listing in compliance with 37 CFR 1.173 because several of the submitted amendments are not in full compliance with 37 CFR 1.173. Please see MPEP 1453 for details.** See 37 CFR 1.111.
